I noticed that Hans did not send this to everyone so I am forwarding. This is the revised section 21 petition in redline reflecting edits made in response to our IO and Justin. Please advise of any further revisions, etc. Thanks.

Attached for review in track changes is the revised section 21 petition response FRN. This version includes track changes to show incorporation of OCSP IO and Justin Schuab's comments.

We are finalizing other package materials including the action memo, comms strategy and letter to petitioners that we will share soon. Please let us know if any questions.

Thanks,
Hans
